CliqHealth

Financial Plan | 2026

Preventive Health Intelligence Platform

CliqHealth is the AI-powered preventive health platform raising £250K to execute paid pilots across three B2B channels: Insurance, Enterprise, and Gym/Wellness. The platform is already built and live with 7 AI modules and 1,000+ organic users. No development spend. Pure pilot rollout.

FOUNDER & CEO: Christy Samuel | Cancer survivor. 12+ years at AWS and Deloitte. Bootstrapped. £50K personal investment. No salary drawn.

£250K Pre-Seed Raise	**10%** Equity Offered	**£2.5M** Post-Money Valuation	**63%** Below Pre-Seed Median
7 AI Modules Live	**1,000+** Organic Users. Zero Ad Spend.	**£50K** Founder Personal Investment	**£0** Dev Spend Required

1. Investment Overview

CliqHealth is raising **£250,000 for 10% equity** at a post-money valuation of **£2.5 million**. This is a pre-seed raise built around one objective: executing paid pilots across three B2B channels within 12 months and converting them into recurring contracts. The product is already built and live.

The raise is priced at **63% below the 2026 pre-seed median post-money valuation of £6.7 million**. At this entry point, investors access a live platform with 1,000+ organic users, active commercial conversations across three B2B channels, and a **$375.97 billion addressable market** growing at 11.84% CAGR.

The Investment Opportunity

Platform status at point of raise

- 7 AI modules deployed and active. 1,000+ organic users acquired with zero paid marketing.
- Active commercial conversations underway across all three B2B channels simultaneously.
- InsurTech UK and SADAH.uk partnerships confirmed. Two strategic anchors already in place.
- This raise funds pilot execution, not product development. Every pound targets a revenue outcome.
- Founder has invested £50,000 of personal savings and drawn no salary. Full commitment.

Valuation Benchmarking

The £2.5M post-money valuation is a deliberately conservative entry point, benchmarked against comparable pre-seed raises in digital health.

Benchmark	Market / Comparable	CliqHealth Position
Pre-seed post-money median (2026)	$8.5M (£6.7M) industry median	**£2.5M — 63% below median. Exceptional investor entry point.**
Product stage at pre-seed	Most raises are idea-stage or early MVP	Live platform. 7 AI modules. 1,000+ organic users. Three B2B channels active.
Strategic partnerships	Typically none at pre-seed	InsurTech UK + SADAH.uk confirmed. Active pipeline across all three B2B channels.
Total addressable market	Digital health median: $10–20B segment	$375.97B preventive health (2026), growing to $920.31B by 2034.
Founder capital committed	Variable at pre-seed. Often minimal.	£50,000 personal investment. No salary drawn. Full skin in the game.
Founder experience	Variable at pre-seed	12+ years at AWS and Deloitte. Enterprise, AI, and commercial expertise. Cancer survivor.

Raise Terms

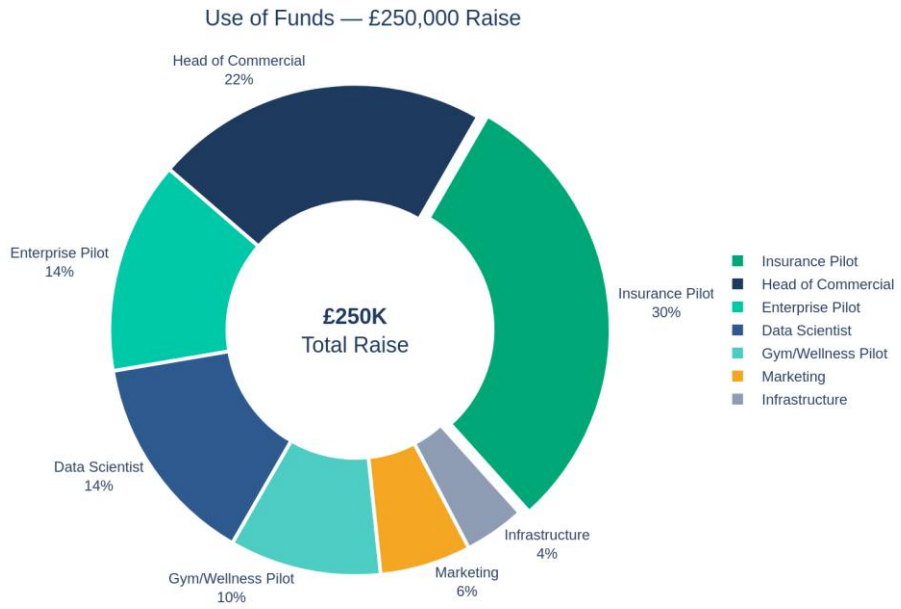

Term	Detail
Raise Amount	£250,000
Equity Offered	10%
Post-Money Valuation	£2.5M (63% below 2026 pre-seed median of £6.7M)

Instrument	Equity (ordinary shares in CliqHealth Ltd)
Minimum Ticket	£25,000
Platform Status	Built and live. 7 AI modules deployed. 1,000+ organic users. Zero development spend required.
Use of Funds	90% directly supports pilot rollout: Insurance (30%), Head of Commercial (22%), Enterprise (14%), Data Scientist (14%), Gym/Wellness (10%), Marketing (6%), Infrastructure (4%).
12-Month Goal	Paid pilot contracts across all three channels. Revenue generating within 12 months of close.
Women's Health	8th AI module launches Q1 2027. Not funded from this raise.
Founder Investment	£50,000 personal savings invested as director's loan. No salary drawn.

2. Use of Funds

The £250,000 raise is built around one goal: executing paid pilots across three B2B channels within 12 months. The product is already built and live. This is a pure commercial rollout raise.

90% of funds are directed at pilot execution, commercial headcount, data infrastructure, and targeted B2B marketing. There is no product development spend. No speculative allocation. Every line item is tied to a revenue outcome.

Allocation Breakdown

Allocation	Amount	%	Purpose
Insurance Pilot Rollout	**£75,000**	**30%**	Onboarding and delivery of the insurance pilot (2K–5K members). POC scoping and execution. InsurTech UK activation. Outcomes reporting. Conversion to 12-month paid contract.
Head of Commercial	**£55,000**	**22%**	Senior commercial hire to convert active insurance conversations into signed pilot agreements. Lead all three B2B pipelines from Day 1.

Enterprise Pilot Rollout	**£35,000**	**14%**	Onboarding and delivery of the enterprise pilot (2K–5K employees). HR platform integrations. Employer outcomes reporting.
Data Scientist	**£35,000**	**14%**	AI personalisation at scale across all three channels. Cohort-level outcomes analytics for insurer and enterprise reporting. Evidence packages.
Gym / Wellness Pilot Rollout	**£25,000**	**10%**	Onboarding and delivery of the gym/wellness pilot (2K–5K members). Gym operator integrations. Member health pathway activation. Outcomes reporting.
Marketing & B2B Sales	**£15,000**	**6%**	Targeted B2B marketing across all three channels. InsurTech UK conference presence. Gym/wellness trade show. Employer benefits market activation.
Infrastructure & Compliance	**£10,000**	**4%**	Cloud infrastructure scaling for pilot volumes. DTAC and MHRA compliance. ISO 27001 preparation. Data security for insurer requirements.
TOTAL	**£250,000**	**100%**	**90% directly supports pilot rollout across all three B2B channels**

Women's Health is NOT in this Use of Funds

The eighth AI module covering menstrual health, menopause, PCOS, pregnancy wellness, and breast cancer awareness is a Q1 2027 initiative funded in a future Series A round. No development spend appears in this allocation. This raise is exclusively a commercial rollout raise.

3. Three Pilot Channels

CliqHealth targets three B2B channels simultaneously. All three are served by the same live platform, the same seven AI modules, and the same clinical outcomes data with channel-specific packaging and pricing. The £250K raise funds the pilot rollout across all three within 12 months.

Channel	Pilot Size	Scale Pathway	Revenue Model	Pilot Fund
Insurance	2,000–5,000 members	100,000-member rollout per insurer	£3–8 PMPM	**£75,000 (30%)**
Enterprise (Employer)	2,000–5,000 employees	Multi-cohort expansion per employer	£5–7 PEPM	**£35,000 (14%)**
Gym / Wellness	2,000–5,000 members	Multi-site rollout per gym chain	£2–3 PMPM	**£25,000 (10%)**

Channel 1: Insurance (Primary Channel)

The insurance channel is the highest-value, highest-scalability route to market. The commercial pathway is a structured three-stage progression: 90-day POC pilot, 12-month paid contract, then full rollout to 100,000 members.

- Pilot size: 2,000–5,000 members across diabetes, CVD, and cancer prevention pathways.
- Scale pathway: 100,000-member rollout generating £3.6M–9.6M per insurer per year.
- Pricing: £3 PMPM (standard), £5 PMPM (core platform), £8 PMPM (premium analytics and outcomes reporting).
- 24% reduction in healthcare costs in comparable digital preventive health deployments.
- 36% fewer unplanned hospital admissions. Proven outcomes across diabetes, CVD, and cancer survivorship.
- InsurTech UK partnership in place. Active conversations with UK insurance decision-makers.

Channel 2: Enterprise (Employer Partnerships)

Employers represent the second B2B channel. CliqHealth operates as an employee health benefit, deployed through HR platforms or standalone, with white-label capability available.

- Pricing: £5–7 PEPM with annual contract renewals.
- Value to employers: measurable reduction in sick days, absenteeism costs, and long-term health claims.
- Enterprise pilots launch at 2,000–5,000 employees, with a clear pathway to multi-cohort expansion.

Channel 3: Gym / Wellness Partners

Gyms and wellness operators represent the third B2B channel. Clinical-grade prevention tools deployed to a consumer health setting, extending reach beyond corporate environments.

- Pricing: £2–3 PMPM (platform as a wellness benefit, integrated with gym membership).
- Clinical-grade condition support for diabetes, CVD, and cancer recovery increases member retention.
- Scale pathway: multi-site rollout across gym chains once single-site pilot data is established.
- Food waste reduction feature integrated into the nutrition module, supporting sustainability credentials.
- Cancer charity giving-back programme embedded in the platform as a commitment, not a marketing line.

4. Insurance Rollout Economics

One number anchors the investor thesis: **one insurer at full rollout to 100,000 members at £5 PMPM generates £6 million per year** in recurring revenue from a single contract. That is the prize this £250K raise is designed to unlock.

£6M/yr	£12M/yr	£30M/yr	£48M/yr
1 Insurer @ 100K Members (£5 PMPM)	2 Insurers @ 100K Members Each	5 Insurers @ 100K Members Each	5 Insurers at Premium (£8 PMPM)

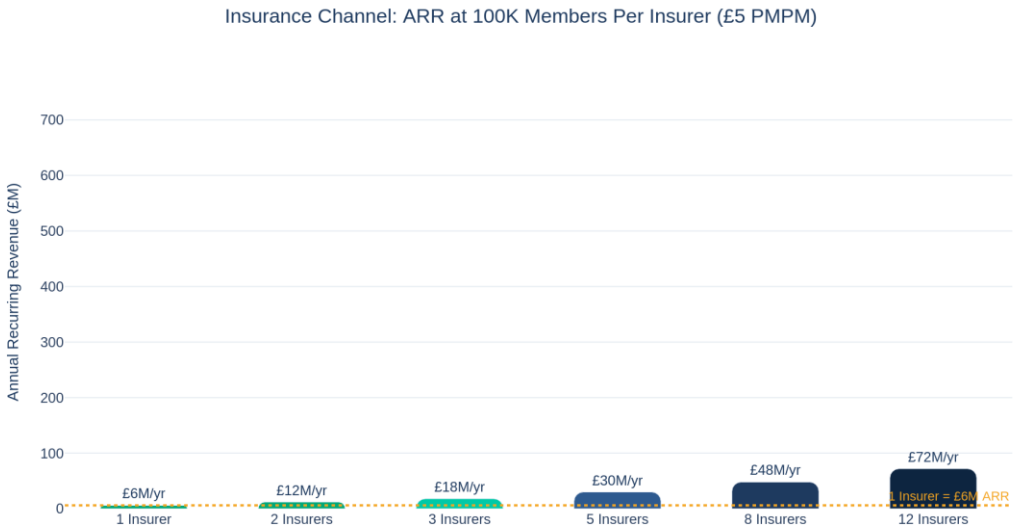

Single Insurer: Revenue at Key Member Thresholds

Members	£3 PMPM (Standard)	£5 PMPM (Core)	£8 PMPM (Premium)	Annual Revenue Range
2,000–5,000 (Pilot)	£72K–£180K	£120K–£300K	£192K–£480K	**£72K–£480K / yr**
10,000	£360K	£600K	£960K	**£360K–£960K / yr**
25,000	£900K	£1.5M	£2.4M	**£900K–£2.4M / yr**
50,000	£1.8M	£3.0M	£4.8M	**£1.8M–£4.8M / yr**
100,000 (Full Rollout)	**£3.6M**	**£6.0M**	**£9.6M**	**£3.6M–£9.6M / yr**

Multi-Insurer Scale Pathway

The same platform. The same cost base. The same seven AI modules. Each additional insurer contract at 100,000 members adds £6 million per year at the core PMPM tier. This is the compounding value of a B2B platform with a built product and no marginal development cost.

Scenario	Members	PMPM Rate	Annual Revenue
1 insurer at full rollout	100,000	£5 PMPM	**£6,000,000**
2 insurers at full rollout	200,000	£5 PMPM	**£12,000,000**
5 insurers at full rollout	500,000	£5 PMPM	**£30,000,000**
5 insurers (premium tier)	500,000	£8 PMPM	**£48,000,000**
8 insurers at full rollout	800,000	£5 PMPM	**£48,000,000**
12 insurers at full rollout	1,200,000	£5 PMPM	**£72,000,000**

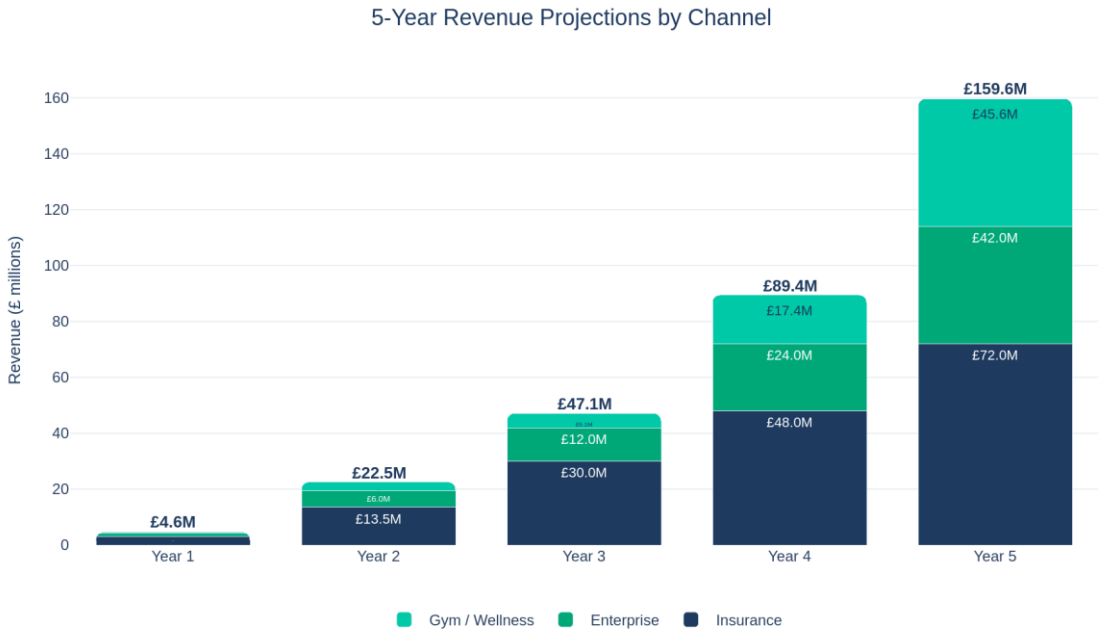

The commercial pathway is clear and proven

Insurance POC pilots at 2K–5K members provide the outcomes data that drives contract conversion. 90-day POC, then 12-month paid contract, then full rollout to 100K members. This raise funds Stages 1 and 2. The revenue from Stage 3 is the return.

5. Revenue Projections (5-Year)

Revenue projections are built on the three-channel pilot conversion model. All projections use channel-specific assumptions: insurer member counts, PMPM rates, months active, and conversion timelines. Insurance is the dominant revenue stream throughout.

£4.6M	£22.5M	£47.1M	£159.6M
Year 1 Revenue	Year 2 Revenue	Year 3 Revenue	Year 5 Revenue

Revenue Build-Up Logic

Each year's projection is built from first principles: partners per channel, members per partner, PMPM rate, and months active. The table shows key-year assumptions.

Channel	Partners	Members/Partner	PMPM	Months Active	Annual Revenue
YEAR 1					
Insurance	2	100,000	£5	6 (ramp)	**£3.0M**
Enterprise	2	25,000	£5	6 (ramp)	**£1.25M**
Gym / Wellness	1	10,000	£2.50	6	**£0.35M**
				Year 1 Total	**£4.6M**
YEAR 2					
Insurance	3	100,000	£5	12	**£13.5M**
Enterprise	4	50,000	£5	12	**£6.0M**
Gym / Wellness	3	25,000	£2.50	12	**£3.0M**
				Year 2 Total	**£22.5M**
YEAR 5					
Insurance	12	100,000	£5	12	**£72.0M**
Enterprise	20+	350,000	£5	12	**£42.0M**
Gym / Wellness	15+	300,000	£2.50	12	**£45.6M**
				Year 5 Total	**£159.6M**

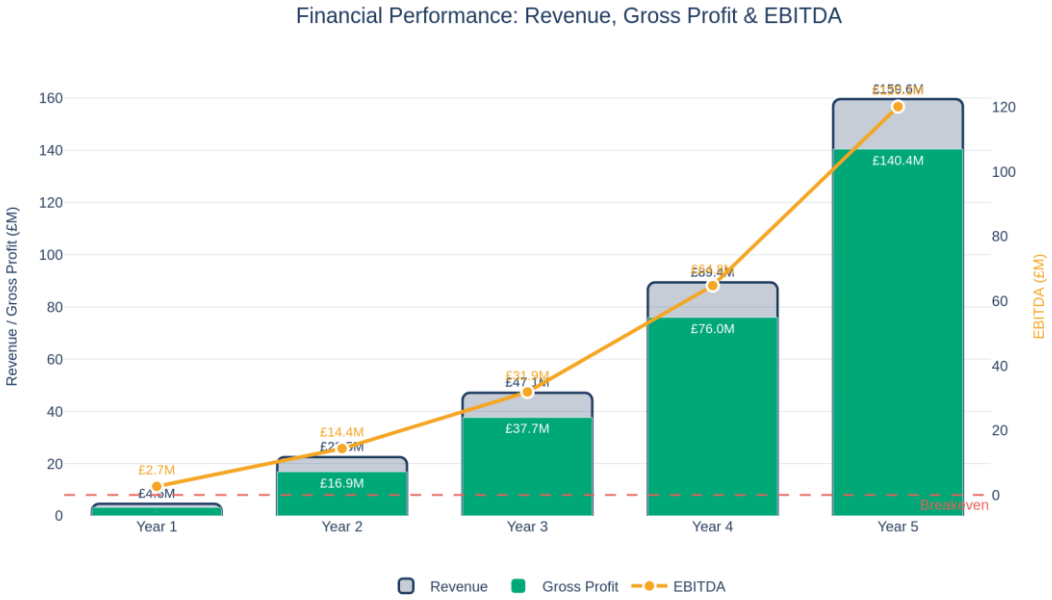

5-Year Revenue Summary

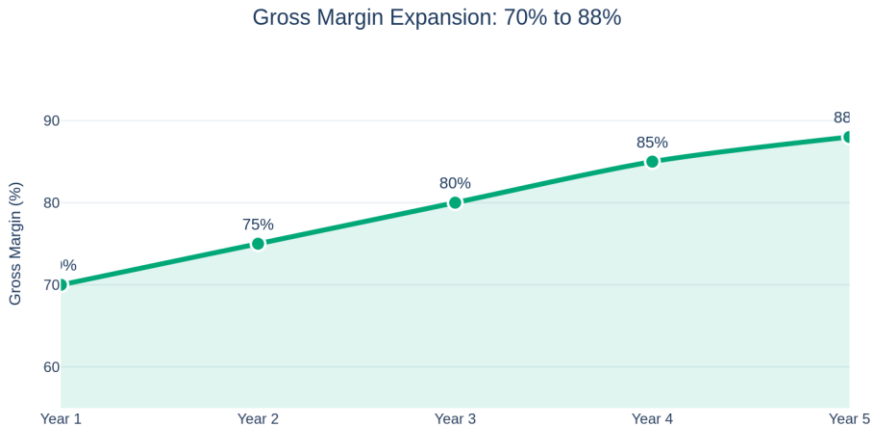

Revenue Stream	Year 1	Year 2	Year 3	Year 4	Year 5
Insurance Channel	**£3.0M**	**£13.5M**	**£30.0M**	**£48.0M**	**£72.0M**

Enterprise Channel	£1.25M	£6.0M	£12.0M	£24.0M	£42.0M
Gym / Wellness Channel	£0.35M	£3.0M	£5.1M	£17.4M	£45.6M
TOTAL REVENUE	**£4.6M**	**£22.5M**	**£47.1M**	**£89.4M**	**£159.6M**

6. P&L Summary

The financial model is built on a disciplined cost structure tied directly to revenue conversion. The largest cost driver is commercial and data headcount, engaged from Day 1 to execute pilots and convert them into contracts. Infrastructure and compliance remain a small proportion throughout.

P&L Summary Table

P&L Item	Year 1	Year 2	Year 3	Year 4	Year 5
Revenue	£4.6M	£22.5M	£47.1M	£89.4M	£159.6M
Gross Margin	70%	75%	80%	85%	88%
Gross Profit	£3.2M	£16.9M	£37.7M	£76.0M	£140.4M
Operating Costs	£0.55M	£2.5M	£5.8M	£11.2M	£20.3M
EBITDA	**£2.7M**	**£14.4M**	**£31.9M**	**£64.8M**	**£120.1M**

EBITDA positive from Year 1. Gross margin expands from 70% to 88%.
Operating leverage is built in. The same platform serves each new insurer, enterprise, and gym partner with minimal incremental cost. As the revenue base scales, gross margins expand and EBITDA compounds. There is no product rebuild. There is no platform rebuild. The cost base grows slowly against a rapidly scaling revenue line.

7. 12-Month Roadmap

From close of raise to first paid contracts across all three B2B channels: 12 months. Three parallel workstreams run simultaneously. Insurance is the primary value driver. All three channels activate from Day 1.

Phase 1: Activation (Months 1–3)

Month	Workstream	Activity	Milestone
1–2	**All Channels**	Hire Head of Commercial. Review all three B2B pipelines. Scoping calls across insurance, enterprise, and gym channels.	**Head of Commercial onboarded by Month 2.**
2–3	**Insurance**	InsurTech UK network activation. Convert active insurance conversations to signed 90-day POC agreements. Agree member cohort (2K–5K) and outcomes metrics.	**Signed insurance pilot agreement(s).**
2–3	**Enterprise**	Employer outreach. Pitch deck and case study development. HR platform integration scoping. First employer pilot agreement.	**Signed enterprise pilot agreement(s).**
2–3	**Gym / Wellness**	Gym chain outreach. Wellness operator partnerships. Pilot structure agreed. Member health pathway activation plan confirmed.	**Signed gym/wellness pilot agreement(s).**
1–3	**Infrastructure**	Data Scientist onboarded. Outcomes reporting dashboard deployed. Platform scaled for pilot volumes. DTAC and ISO 27001 compliance progress.	**Platform pilot-ready across all channels.**

Phase 2: Pilot Delivery (Months 4–6)

Workstream	Activity	Milestone
Insurance Pilot	Member onboarding (2K–5K). Diabetes, CVD, and cancer pathways activated. Wearable integrations live. 90-day outcomes tracking begins.	**Active member engagement. Measurable pathway adherence.**
Enterprise Pilot	Employee onboarding (2K–5K). All 7 modules available. HR platform integration live. Engagement and wellbeing metrics tracked.	**Active employee engagement. Wellbeing baseline established.**

Gym / Wellness Pilot	Gym member onboarding (2K–5K). Condition-specific pathways activated. Gym operator dashboard live.	**Active gym member engagement. Retention data collecting.**
Outcomes Measurement	Across all channels: biometric improvements, engagement rates, utilisation data. Evidence packages built for each channel.	**Evidence packages ready for contract conversion meetings.**

Phase 3: Commercial Conversion (Months 7–12)

Workstream	Activity	Milestone
Insurance	Outcomes review with insurer teams. Commercial negotiation. 12-month paid contracts signed. 100K rollout pathway scoped.	**12-month paid insurance contract(s). Revenue pathway confirmed.**
Enterprise	Outcomes review with HR and People teams. Annual contract negotiation. Multi-cohort expansion scoped.	**Paid enterprise contracts. Year 2 expansion agreed.**
Gym / Wellness	Outcomes review with gym operators. Multi-site rollout agreement. Year 2 expansion pipeline.	**Paid gym contracts. Multi-site rollout pathway confirmed.**
Year 2 Setup	Year 2 pipeline activated: insurance cohort 2, enterprise expansion, gym chain multi-site. Q1 2027 Women's Health module launch preparation.	**Year 2 revenue path confirmed. Women's Health on track.**

Q1 2027 Future Phase: Women's Health

- The eighth AI module launches as a Series A workstream: menstrual health, menopause management, PCOS support, pregnancy wellness, and breast cancer awareness.
- Not funded from this raise. Confirmed on the product roadmap.
- The data infrastructure built during this 12-month period directly supports the Women's Health module launch.

8. Market Opportunity

The addressable market for CliqHealth is anchored on three conditions that account for the largest share of preventable healthcare expenditure: type 2 diabetes, cardiovascular disease, and cancer. All three are served by the same live platform and represent enormous, growing B2B commercial opportunities.

$375.97B	11.84%	£14B	$420.2B
Global Preventive Healthcare Market 2026	CAGR to $920.31B by 2034	Annual UK Diabetes Cost Burden	Global Digital Health Market 2026

Global Market Data (2026)

Market Segment	2026 Value	Projected Value	Year	CAGR	CliqHealth Relevance
Global Preventive Healthcare	**$375.97B**	$920.31B	2034	**11.84%**	Core TAM. All three conditions.
Global Digital Health	**$420.2B**	$1,830.4B	2033	**23.4%**	Platform market. AI-powered delivery.
Digital CVD Management	**$49.64B**	$187.6B	2032	**22.9%**	CVD prevention module direct market.
Cancer Survivorship (Digital)	**$2.29B**	$4.48B	2032	**10.1%**	Cancer support pathway direct market.

UK InsurTech Market	**Growing rapidly**	$26.49B	2032	**High**	Primary channel. InsurTech UK partnership.
UK Diabetes Costs (Annual)	**£10.7B direct**	£14B total burden	Current	**Structural**	SADAH.uk partnership. Core prevention pathway.

The Three Core Conditions

Diabetes

4.4 million people in the UK live with diabetes. 90% have Type 2, which is largely preventable through lifestyle intervention. UK diabetes costs £10.7 billion annually in direct NHS expenditure, plus £3.3 billion in indirect costs: a £14 billion annual burden. A further 3.9 million are at high risk and receive no structured preventive support. CliqHealth's diabetes prevention pathway is live, deployed, and already in use. SADAH.uk partnership provides clinical credibility and referral volume.

Cardiovascular Disease

CVD is the leading cause of death globally, accounting for 17.9 million deaths annually. **90% of CVD is preventable through lifestyle intervention**, yet most health systems address it reactively. The digital CVD management market is valued at $49.64 billion in 2026, growing at 22.9% CAGR to $187.6 billion by 2032. UK insurers face rising CVD claims as preventable cardiac events dominate hospital admission data.

Cancer

75% of cancer deaths are linked to preventable lifestyle factors. The cancer survivorship management market is valued at $2.29 billion in 2026, projected to reach $4.48 billion by 2032 at 10.1% CAGR. Long-term survivorship support is chronically underfunded in both the NHS and private insurance, despite clear evidence of its cost-effectiveness. CliqHealth fills this gap directly. A cancer charity giving-back programme is embedded in the platform as a commitment, not a marketing line.

9. Partnerships

CliqHealth has two confirmed strategic partnerships and active conversations across all three B2B channels. These partnerships provide direct access to insurer networks, clinical credibility in diabetes prevention, and NHS alignment.

Partner	Nature of Partnership	Strategic Value
InsurTech UK	Official partnership with the UK's leading InsurTech industry body	Positions CliqHealth within the UK insurance innovation ecosystem. Direct access to insurer networks and decision-makers. InsurTech UK conference presence and co-promotion. Accelerates conversion of active insurance conversations to signed agreements.
SADAH.uk	Diabetes prevention collaboration and referral partnership	Clinical credibility in the diabetes vertical. Co-developed diabetes prevention pathway. User referral channel and NHS alignment. Strengthens the insurance pilot evidence package with diabetes-specific outcomes data.
UK Insurance Teams	Active conversations with insurance teams exploring preventive health pilot programmes	Validates the insurance pathway. Pilot design conversations in progress. This raise converts these conversations into signed 90-day POC agreements.

10. The Founder

Christy Samuel | Founder and CEO

- Cancer survivor. Built CliqHealth from personal lived experience of what the healthcare system fails to provide.
- 12+ years at AWS and Deloitte: enterprise technology, AI systems, and commercial delivery at scale.
- £50,000 personal savings invested as director's loan into CliqHealth. No salary drawn.
- 7 AI modules built and deployed. 1,000+ organic users. Zero paid marketing spend.
- Active commercial conversations across all three B2B channels before this raise.

> *"I did not study this market in a textbook. I lived it. I know what it feels like to sit in a chemo chair wondering whether the meal I just ate is helping or harming my treatment. I know what it is like to search for supplement interactions at 2am because no system connects that information for you. Every feature in CliqHealth exists because I needed it and it did not exist. CliqHealth was born from healing, backed by heart, and built to scale."*
>
> **— Christy Samuel, Founder and CEO. Cancer survivor. 12+ years at AWS and Deloitte.**

11. The Ask

CliqHealth is not a concept. The platform is built and live. 1,000+ real users acquired without a single pound of paid marketing. Active conversations are underway across all three B2B channels. This raise gives investors an exceptional entry point into a live, revenue-ready platform with a $375 billion addressable market and three simultaneous commercial channels activating within 12 months.

£250K	10%	£2.5M	12M
Raise Amount	Equity Offered	Post-Money Valuation	To Paid Contracts Across All Channels

Term	Detail
Raise Amount	£250,000
Equity Offered	10%
Post-Money Valuation	£2.5M (63% below 2026 pre-seed median of £6.7M)
Use of Funds	90% directly supports pilot rollout: Insurance (30%), Head of Commercial (22%), Enterprise (14%), Data Scientist (14%), Gym/Wellness (10%), Marketing (6%), Infrastructure (4%).
Platform Status	Built and live. 7 AI modules deployed. 1,000+ organic users. Zero development spend required.
12-Month Goal	Paid pilot contracts across all three channels: Insurance, Enterprise, and Gym/Wellness. Revenue generating within 12 months of close.

Year 1 Revenue	£4.6M (2 insurers at 100K members with ramp-up, plus enterprise and gym channels)
Year 5 Revenue	£159.6M (12 insurers + enterprise + gym/wellness at scale)
Women's Health	8th AI module launches Q1 2027 as Series A workstream. Not funded from this raise.
Investor Fit	Angels and early-stage VCs seeking an exceptional entry point into the $375B+ preventive health market with three simultaneous B2B channels generating revenue within 12 months.

CliqHealth was born from healing, backed by heart, and built to scale.

The platform is built. The users are there. The conversations are live. This £250,000 raise is the final step between CliqHealth's live platform and paid commercial contracts across three B2B channels. Insurance at scale generates £3.6M–9.6M per insurer per year from a single contract. Enterprise and gym/wellness add diversified, recurring revenue from the same platform. Every pound in this raise is tied to a revenue outcome.

Christy Samuel | Founder and CEO | www.cliqhealth.ai I christysamuel@cliqhealth.ai
