Total Workforce Health Cost

£51B
Mental Health to Employers

£44B
Respiratory Infections

£29B
Presenteeism

The Three Conditions That Define Our Market

DIABETES — **£14B**

UK annual burden | 4.4M people
90% of Type 2 preventable through lifestyle

CARDIOVASCULAR — **90%**

preventable | Leading cause of death globally
17.9M deaths annually | $49.64B digital market

CANCER — **75%**

of deaths preventable through lifestyle
$2.29B survivorship market → $4.48B by 2032

60% of chronic conditions are PREVENTABLE

70%+ of health spend goes to chronic disease

10-15% annual increase in insurance claims

<10% traditional wellness engagement rate

"The world spends trillions TREATING disease. We prevent it. CliqHealth is already built, live, and ready to prove it through insurance pilots."

THE SOLUTION

CliqHealth: Prevention-as-a-Platform — Already Built and Live

CliqHealth
AI Engine

BUILT AND LIVE

- AI Nutrition & Christy AI Assistant
- Fitness & Wellness
- Clinical Insights & Biomarkers
- Diabetes & CVD Programs
- Cancer Survivorship
- Wearable Integration

CORE FOCUS

Diabetes
Cardiovascular
Cancer

7 AI Modules

ALL LIVE TODAY

Key Differentiators

- AI personalisation for EVERY user
- Covers 10 chronic conditions (not just fitness)
- 60-70% sustained engagement (vs 7-21% competitors)
- Built for B2B: Enterprise + Insurance + Gym
- Insurance-ready with outcomes reporting
- AWS cloud, GDPR, ISO 27001 compliant

"Not another wellness app. A clinical-grade prevention platform — ALREADY BUILT AND LIVE."

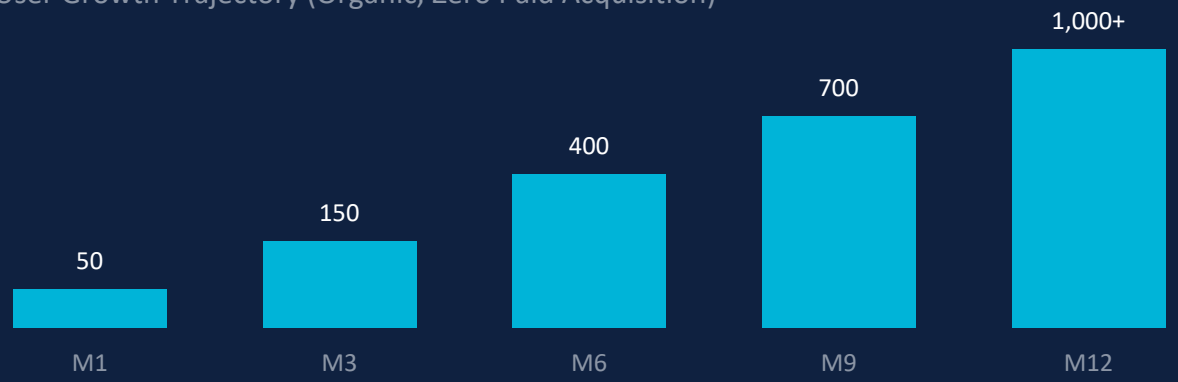

Founder – Christy Samuel

"Built by a cancer survivor from a hospital bed, backed by 12+ years at AWS and Deloitte."

TRACTION

Product Built, Users Growing, Partnerships Active

User Growth Trajectory (Organic, Zero Paid Acquisition)

1,000+ Active Users	60-70% Daily Engagement	7 AI Modules Live
3 Pilot Channels Ready	£50K Founder Investment	£0 Salary Drawn

Partnerships & Pipeline

InsurTech UK

Positioning CliqHealth within the UK insurance innovation ecosystem

SADAH.uk

Diabetes prevention collaboration and referral pathway

Insurance Conversations

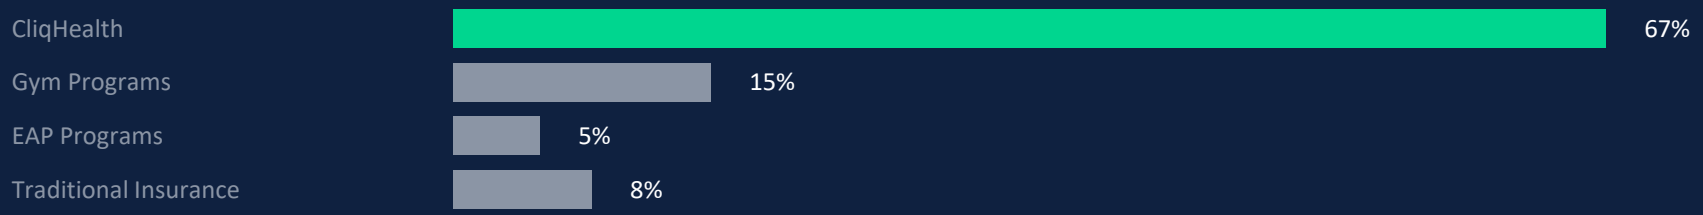

Active discussions with UK insurance teams for pilot agreements

Enterprise Pipeline

Employer wellness conversations for 2K-5K employee pilots

Engagement Comparison

"8x higher engagement than any competitor"

Evidence: 24% healthcare savings | 36% fewer admissions | 60-70% sustained daily engagement

BUSINESS MODEL

Three Pilot Channels: £250K Rolls Out the Existing Product

INSURANCE

£5

PMPM

90-day POC → 12-mo contract

THE PRIMARY PATHWAY

ENTERPRISE B2B

£3-8

/employee/month

Direct HR/Benefits sales

2K-5K employee pilots

GYM & WELLNESS

£2-3

PMPM

Gym chains/wellness providers

2K-5K member pilots

100,000-MEMBER INSURER ROLLOUT ECONOMICS

THE KILLER NUMBER

ONE INSURER	100K members	× £5 PMPM	= £6M/year
TWO INSURERS	200K members	2 insurers	= £12M/year
FIVE INSURERS	500K members	5 insurers	= £30M/year

£250K converts insurance conversations into insurance contracts. Every pound rolls out the existing product.

Unit Economics

ARPU	CAC	LTV	LTV:CAC	Gross Margin
£5/mo = £60/yr	Low (B2B)	£180+ (3yr)	10:1+	80%+

"Land-and-expand: 2K-5K pilot → 100K full rollout → White-label. Product is built. Money rolls it out."

COMPARABLES

The Market is Validating Preventive Health at Scale

Preventive Health Comparables

Livongo — $18.5B

Chronic condition management

Acquired by Teladoc

Neko Health — $7.0B

Preventive body scanning

Raised $700M Series C, July 2026

Hims & Hers — $4.5B+

Telehealth/wellness platform

Public company, scaled DTC

Noom — $3.7B

Weight management/behaviour change

Behaviour change AI

CLIQHEALTH COMBINES

Neko (prevention) + Noom (behaviour) + Livongo (chronic care) in one platform, at pre-seed pricing. Product ALREADY BUILT.

KEY INSIGHT

Neko Health: $1.7B → $7B in 18 months. Preventive health is the fastest-growing sector in digital health.

CliqHealth at £2.5M = exceptional entry point vs $3.7B-$18.5B comparables

Notable Investors in Space: Lightspeed | a16z | GV | Sequoia | General Catalyst

Remember: 1 insurer at 100,000 members = £6M/year. The product is built. The money rolls it out. Two insurers = £12M. Five = £30M.

12-MONTH ROADMAP

From £250K Raise Through Pilots Across All 3 Channels to Revenue

PHASE 1: HIRE

Months 1-2

- £250K raise closes
- Head of Commercial hired
- Data Scientist hired
- InsurTech UK activation
- Enterprise & gym conversations
- Platform scaled for pilot volumes

PHASE 2: PILOTS SIGNED

Months 3-4

- Insurer pilots signed (2K-5K)
- Enterprise pilots signed (2K-5K)
- Gym pilots signed (2K-5K)
- Members onto EXISTING platform
- Baseline assessments collected
- All 3 channels activated

PHASE 3: 90-DAY PILOTS

Months 5-7

- All pilots running across 3 channels
- AI pathways: Diabetes, CVD, Cancer
- 60-70% engagement tracked
- Health behaviour data collected
- Outcomes reports to partners
- Evidence packages building

PHASE 4: CONTRACTS

Months 8-12

- Evidence reports completed (M8-9)
- Contract discussions initiated
- First paid contracts signed (M10-12)
- Revenue: £3-£8 PMPM per member
- Series A preparation begins
- Pipeline: 100K member rollout

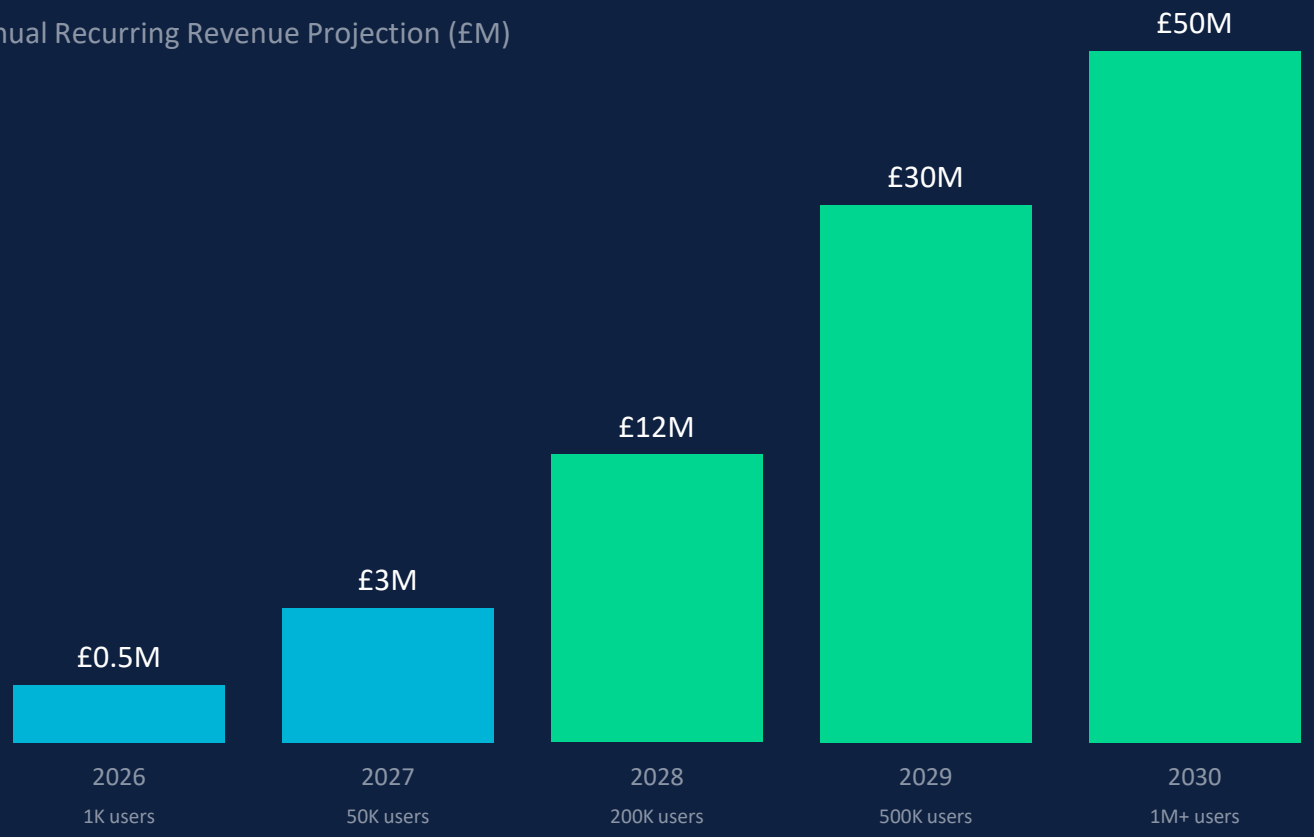

90% of £250K directly supports pilot rollout across all 3 channels. Product is BUILT. Zero development spend.

£250K → 3-Channel Pilots (Insurance + Enterprise + Gym) → 90-Day Evidence → Paid Contracts → £6M/year per insurer

FINANCIALS
